

Sample Schedule

This schedule is intended to provide one way you may use the activity cards to engage with infants. You will notice that the activities have been chosen based on the time of day and to fit seamlessly into your routine. Repeat activities from week to week to support children's developing skills. Rotate activities as children's skills develop. Use what works best for the children in your setting. This sample was created from the On the Go theme; you can apply this model to choose activities for the My World and Pets I Know boxes.
