## Child Progress Report (4-5 years)

As children near the end of their preschool years, they display independence and imagination. They participate in lengthy conversations with correct grammar and complex sentences, asking questions to keep the conversation going. Preschoolers are starting to recognize numbers and letters, make letter-sound connections, and will be writing their names, some letters, and may use invented spelling.

Preschoolers are able to learn new math concepts related to their day and regularly compare number, size, and length. They understand counting and can identify many shapes. Calendar concepts and knowledge of weather and seasons are developed.

The skills included in this booklet show your child’s progress over the last several months. Watching children move from preschool to kindergarten is an exciting time for parents and teachers!
