

# Build a Print-Rich Environment with Bulletin Boards!

November 2025

Ages 0-3

## Dancing Feet

Cut a piece of tan paper that is large enough to cover your bulletin board. Help one child at a time remove her socks and shoes. Use a wide paintbrush to coat the child's feet with paint and help her make footprints on the paper. Clean the child's feet and then repeat with each child, using several colors of paint. Let dry. Attach the paper to the board and add a purple border. Add the caption "Dancing Feet" in large letters. Take photos of children dancing and singing and add them to the board.

Ages 3-5

## Moving and Grooving

Cover your bulletin board with colorful paper and add a decorative border, if desired. Play lively music and photograph the children dancing. Print copies of the photos, cut them as desired, and staple them to the board. Add music notes for further decoration. Add the title "Moving and Grooving."

Ages 3-5

## Dairy Good Foods

Cover your bulletin board with colorful paper and add a decorative border, if desired. Provide food magazines and store ads. (Clip art from the Internet will work too.) Invite children to cut out pictures of dairy products. Attach the items to the board, and add the title "Dairy Good Foods."
